Greetings,

Using the team at ShipRock management has been one of the best decisions that I have made as a landlord. Since signing with them I have had nothing but good experiences. They quickly found responsible tenants for the house and when something major went wrong with the plumbing, they found a plumber to fix it and kept me informed all along the way.

I would recommend anyone who has anywhere from 1 property to a dozen to trust ShipRock with your management needs, they haven't let me down yet.
